

**HistologiX, is a leading independent GLP compliant laboratory for the provision of Immunohistochemistry (IHC), Histology, Digital Pathology and Image Analysis Solutions, to progress drug development programmes in the Pharmaceutical and Biotechnology sectors.**

We are currently looking to employ an experienced Quality Compliance Manager. The Quality Compliance Manager is an important and high-profile role within HistologiX, who is responsible for the management and running of the Quality department. As Quality Compliance Manager you are responsible for performing quality assessments on the operational processes and ensuring these systems are compliant, implemented, and user-, client-, and business- friendly. The role will be based in the HistologiX laboratories in Biocity Nottingham during regular business hours.

You will be responsible for the maintenance and continuous improvement of the GLP Quality system. You will be required to Host Regulatory Inspections and liaise with regulatory bodies (e.g. MHRA, FDA etc) as required as well as performing internal audit functions: process audits, assay audits, documentation audit, etc.

You will have a degree or higher qualification in a Life Science, with at least 5 years Quality experience, preferably within a GLP environment. You will have a thorough understanding and experience applying EU and US GLP regulations and have excellent written and verbal communication skills coupled with the ability to prioritise multiple tasks and have the confidence to challenge existing systems & processes.

If this sounds like you, contact Barbara McManus at [barbara.mcmanus@histologix.co.uk](mailto:barbara.mcmanus@histologix.co.uk) for an informal discussion in the first instance.
