

HistologiX, is a leading independent GLP compliant laboratory for the provision of Cellular Pathology and Digital Pathology Solutions, to progress drug development programmes in the Pharmaceutical and Biotechnology sectors.

We are currently looking to employ a Trainee Research Scientist. The Trainee Research Scientist role will be involved in the day-to-day operations within the HistologiX laboratories. The required individual must have proven problem-solving skills with suitable experience in a laboratory setting. Ideally the candidate will have technical immunohistochemistry and histology experience and be able to follow scientific standard procedures and good laboratory practice (GLP).

The role will be based in the HistologiX laboratories in Biocity Nottingham during regular business hours.

Key Responsibilities & Duties

- Assist with immunohistochemistry projects
- Assist with histology projects
- Support in the preparation of standard operating procedures (SOPs)
- Support in the preparation of study documentation
- Inventory, stock, audit and organise supplies and chemicals

Skills and Attributes

- A degree in the last five years in a relevant scientific discipline
- Ideally previous experience within a Laboratory role, preferably within a GLP environment
- Excellent communication skills to be able to work across a fast-paced organisational team
- Competent in Microsoft Word, Excel and PowerPoint
- Strong organisational skills with high attention to detail

Qualifications and Experience

- Degree or higher qualification in a Life Science with post qualifying experience
- Effective team player
- Strong administrative and organisational skills with high attention to detail
- Proficient IT skills
- Demonstrates an ability to work to defined timelines

If this sounds like you, please submit your CV to Diane Brooks diane.brooks@histologix.co.uk
Closing date for applications 31st May 2022.
